

ADVANCE NOTICE TO WAIVE COMPETITION

The purpose of an Advance Notice to Waive Competition (ANWC) is to inform the supplier community and the public that Miami-Dade County intends to enter into a noncompetitive contract to purchase certain goods and/or services as identified in the synopsis (see link below). While the County is not required to provide an ANWC, we believe this information will: enhance transparency in County procurement; foster full and open competition; and provide potential suppliers an opportunity to submit a statement of capabilities to meet the specified requirements. Qualified and responsible suppliers are encouraged to submit a statement of capability to the Procurement Agent or Contracting Officer identified in the synopsis.

DISCLAIMER: This service is provided for convenience only and does not serve as a guarantee of notification. Potential suppliers are encouraged to submit a statement of capabilities. However, the County, in its sole discretion shall determine if to proceed with a waiver of competition and enter into negotiations with the pre-identified supplier. The synopsis below may be the only notice of this action. Requestor: (Agency, Institution, Division, District, or Office, as appropriate)

Requisition Number: RQWS0500068

Title: Sigalarm Power Line Proximity Warning System

Description: Miami Dade County is looking to award a contract for a power line proximity warning system manufactured by Sigalarm, Inc. that it has installed throughout the Water and Sewer Department's cranes and high lift equipment. This device warns personnel that they are working too close to charged power lines through various methods including but not limited to an audible and visual alarm installed within the equipment.

Companies wishing to inquire about the system or to propose their own system should contact the undersigned.
